

Western Forest Products will use the information you provide only to improve planning for forest management activities. WFP will not provide your contact information to spammers, or any third party without your consent except where required by law to do so or in the good faith belief that you may be misusing our website, violating the rights of third parties, or breaking the law. Where you have indicated that you do not wish the location of a resource feature you have identified to be made known to others, we will use reasonable precautions to ensure that critical information about the feature is kept in-house. We may however transfer your information in connection with the transfer or sale of part or all of our forest operations to another party. We are not responsible for breaches of confidentiality by such third parties, or by the government where you have indicated that the location may be provided to them.

Please be advised that when you use this Internet form to enter Forest Stewardship Plan comments or feature locations, the information will be transmitted to a WFP forest planner by email. We cannot guarantee that the email will not be intercepted. If the information is highly sensitive, consider visiting our office in person or sending the information via Canada Post.
