**Western Forest Products Announces Closing of the Secondary Offering
by Brookfield Special Situations**

October 9, 2013 – Vancouver, British Columbia. Western Forest Products Inc. (TSX:WEF) ("Western" or the "Company") and Brookfield Special Situations Management Limited ("Brookfield"), a wholly-owned subsidiary of Brookfield Asset Management (TSX:BAM.A)(NYSE:BAM), today announced that they have closed the previously announced bought deal secondary offering, through which Brookfield sold 46,000,000 units (the "Offered Units") at an offering price of \$1.45 per Offered Unit (the "Offering") for aggregate gross proceeds to Brookfield of C\$66,700,000. Each Offered Unit consisted of one non-voting share (an "Offered Share") of the Company owned by Brookfield and one voting common share purchase warrant (a "Warrant") of the Company, with each Warrant entitling the holder thereof to purchase one voting common share (a "Common Share") of the Company owned by Brookfield at a price of \$1.60 until July 31, 2014.

The Offering was conducted by Scotiabank, CIBC World Markets Inc., Goldman Sachs Canada Inc., RBC Dominion Securities Inc., TD Securities Inc., BMO Nesbitt Burns Inc., HSBC Securities (Canada) Inc., National Bank Financial Inc. and Raymond James Ltd. (collectively, the "Underwriters"). Closing of the Offering included the full exercise of the over-allotment option granted to the Underwriters.

On closing of the Offering, all Offered Shares were converted, on a one-for-one basis, into Common Shares of Western, representing approximately 15% of the issued and outstanding Common Shares on a non-diluted basis after giving effect to the Offering.

Immediately following completion of the Offering, 45,119,820 of the then remaining non-voting shares held by Brookfield were converted into Common Shares on a one-for-one basis (the "Post-Offering Conversion"), resulting in Brookfield holding 172,506,977 Common Shares, representing approximately 49% of the current issued and outstanding Common Shares of Western on a non-diluted basis. This represents the same percentage of Common Shares that Brookfield held prior to the Offering.

The Post-Offering Conversion and certain transactions in connection with the Warrants may be considered to be "related party transactions" as such term is defined under Multilateral Instrument 61-101 - *Protection of Minority Security Holders in Special Transactions* ("MI 61-101"), as the Company issued securities to Brookfield (a related party of the Company by virtue of its beneficial ownership of more than 10% of the voting shares of the Company) in connection with the Post-Offering Conversion and will be distributing Common Shares held by Brookfield upon exercise of Warrants. Such transactions, however, are exempt from the valuation and minority approval requirements under MI 61-101 for related party

transactions as the aggregate fair market value of the subject matter of the applicable transactions is less than 25% of the Company's market capitalization.

The Offered Units were offered by way of a short form prospectus filed in all of the provinces of Canada pursuant to National Instrument 44-101 - *Short Form Prospectus Distributions*.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy the securities in any jurisdiction in which such offer, sale or solicitation would be unlawful. The Common Shares have not been and will not be registered under the United States *Securities Act of 1933*, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from registration.
