

# Certificate of Registration

PricewaterhouseCoopers LLP has assessed whether the management system at

## Western Forest Products Inc.

118-1334 Island Highway, Campbell River, BC V9W 8C9

is suitably designed to provide limited assurance that the requirements of the standard noted below (the Requirements) have been met, as of May 21, 2019.

### CAN/CSA Z809-16 Sustainable Forest Management Standard

#### **SCOPE OF CERTIFICATION:**

The multisite forest management processes, including planning, harvesting, road construction, silviculture and transportation of logs managed through the Timberlands Corporate and the timberland offices<sup>1</sup> managing the Defined Forest Areas (DFA) of North Island, Mid-Island, Englewood, Port Alberni (TFL 44 General Partner Inc.) and Stillwater.

Management is responsible for ensuring the management system meets the Requirements. Our responsibility is limited to expressing an opinion as to whether the Requirements were met, based on our assessment. The CAN/CSA Z809 standard can be found at <http://www.csagroup.org/>.

Our assessment was conducted in accordance with the ISO 17021 management system auditing standard and, accordingly, included examining, on a sample basis, evidence supporting management's assertion that the Requirements were met and performing such other procedures as we considered necessary in the circumstances. We planned and performed our work in order to obtain limited, rather than absolute, assurance with respect to the information examined. We believe our work provides a reasonable basis for our opinion.

In our opinion, the management system was suitably designed to provide limited assurance that the Requirements were met, in all material respects, as of May 21, 2019.
