

DEFINING A HIGHER STANDARD™ OF FOREST MANAGEMENT

We are proud to champion the most comprehensive forest practices in the world to ensure healthy forests and a sustainable industry for today and generations to come.

REDUCES CO₂

Building with Western Red Cedar actually helps reduce greenhouse gases.

RENEWABLE

Wood is the only major building material that's renewable.

SUSTAINABLE

Western Red Cedar is recyclable and biodegradable and comes from the most sustainably managed forests in the world.

TRUESTYLE™

NATURALLY, THE BEST CHOICE.

WFP TRUESTYLE™ is the premier brand for natural wood siding, soffits and other outdoor living products. The WFP TRUESTYLE™ brand of products are held to the highest quality standards.

WFP TRUESTYLE™ Siding & Soffits are Western Forest Product's premium line of high-quality, Western Red Cedar exterior appearance products. Milled in a wide range of lengths and profiles, all boards are high-grade, 100% natural wood products that display a rich, deep beauty and grain, a silky luster, and a texture that man-made composite products simply cannot match. WFP TRUESTYLE™ Siding & Soffits are available in wide range of profiles and can be installed in either direction depending on your design.

WESTERN RED CEDAR

Western Red Cedar is sustainable, renewable and beautiful. The species grows in a spectrum of hues that range from a light honey yellow to a deep sienna red, and the wood is highly sought after for its warm, rich look, and deep, natural luster. The combination of WRC's grain, texture and colours create a naturally luxurious and prestigious product that no man-made material can replicate.
