

Connected Planning in an Adaptive Management Framework

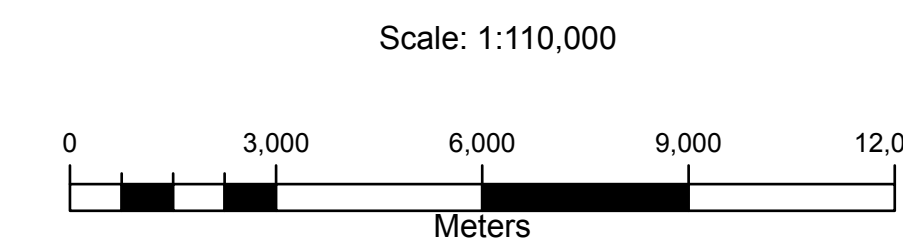

This Forest Operations Plan map identifies the future harvest pattern for 2025-2029. The proposed cutblocks and roads reflect the implementation of the 20 Stewardship Strategies in the Forest Operations Plan and are reflected in the 12 Future Forest Outcomes in the Forest Landscape Plan. Connected planning strengthens public transparency as the Future Forest Outcomes provide the landscape context for each of the proposed cutblocks and roads.

TFL 37 Forest Operations Plan 2025 to 2029

Entire FOP Area Map 1 of 1

Map Focus: Existing and Proposed Cutblocks and Roads

Projection : BC Albers
Datum : NAD 83
Date : 1/31/2025
Created By : WFP CORP GIS

Entire FOP area is subject to Government Actions Regulation Orders to identify Karst Resource Features effective 2007.

- FOP Area
 - TFL 37
 - Private Land
 - Private Land Within TFL 37
 - Nimngis Conservation Network
 - Proposed Gwa'ni Conservancy
 - Provincial Park
 - Stream
 - Waterbody
- Forest District

- Municipality
- Alert Bay
 - Port McNeill
 - Zeballos
- Gwa'ni Management Zone
- Dzign
 - Majik (includes Nimngish Lake travel corridor)
 - General Management Zone (balance of FOP area)

Existing Road

- WFP Under Permit
- Atli Under Permit
- Resource Road
- Forest Service Road
- Highway 19

Proposed Road

- 2025 WFP
- 2026 WFP
- 2027 WFP
- 2028 WFP
- 2029 WFP
- 2025 Atli
- 2027 Atli
- 2029 Atli

Proposed Cutblock

- 2025 WFP
- 2026 WFP
- 2027 WFP
- 2028 WFP
- 2029 WFP
- 2025 Atli
- 2026 Atli
- 2027 Atli
- 2029 Atli

Existing Cutblock

- WFP Under Permit
- Atli Under Permit
- All Others Harvested Since 2005
