

Western 2” Rougher Headed

WESTERN RED CEDAR

Western Forest Products is a trusted leader in natural wood trim, fascia, and finishing products, recognized for uncompromising quality and craftsmanship. Each product bearing the Western name is manufactured to the highest standards of fiber consistency and performance. Designed for those who value both durability and aesthetics, Western’s finishing products provide a refined, natural look that enhances any architectural style.

WHY IS WESTERN RED CEDAR IDEAL TO WORK WITH?

Naturally Durable – resists rot, decay, and insects without chemicals.

Renewable – western red cedar is recyclable and biodegradable

Biophilic – natural wood products have a positive measurable impact in various areas of health and wellness

SPECIES CHARACTERISTICS

Western Red Cedar offers warmth, natural durability, and dimensional stability, delivering a rich, authentic aesthetic. Western Red Cedar is also pitch and resin-free, meaning it readily accepts a wide range of finishes and stains.

2" x 10"	1-11/16" x 9-3/4"	RH	Green	6'-20'	70
2" x 12"	1-11/16" x 11-3/4"	RH	Green	6'-20'	56

FINISHING AND MAINTENANCE

- Western Red Cedar can be allowed to weather naturally to a silvery grey look, or a wide range of stains and coatings can be applied to ensure maximum performance.
- For best results coat all six sides before installation.
- New cedar boards that are going to be finished should be protected from the weather before finish has been applied.
- Allow product to acclimatize to the environment where it will be installed to avoid unwanted shrinkage or expansion.

- Fasteners with corrosion resistance should be used. Hot-dipped galvanized or stainless steel.
- **Important Note:** Never power-wash wood as it damages the wood fibers.

Finishing and maintenance guidelines are provided for general informational purposes only. These recommendations are provided by the Western Red Cedar Lumber Association.
