

# Western Structural Timbers

YELLOW CEDAR

Western Forest Products is a trusted leader in natural wood timbers, known for its uncompromising quality and craftsmanship. Every product bearing the Western name meets some of the highest standards in fiber consistency and manufacturing excellence. Our structural yellow cedar timbers are prized for their exceptional durability, natural resistance to decay, and insect-repellent properties, delivering reliable performance in even the most demanding environments.

## WHY IS YELLOW CEDAR IDEAL TO WORK WITH?

**Rot Resistance** – yellow cedar has naturally-occurring, rot repelling tannins and oils.

**Durability** – one of the most durable cedar species in the world.

**Density** – provides structural strength and versatility

## SPECIES CHARACTERISTICS

Yellow Cedar structural timber combines natural elegance, exceptional strength and longevity, making it a worthwhile investment for design-focused projects. It can be stained or left unfinished to weather naturally to a silvery-grey colour. Yellow Cedar is also durable and naturally resistant to decay, making it a prized material for uses such as boat building, sauna manufacturing, cabinetry and millwork. Structural timbers are available in a mix of grade including #1/Btr, #2/ Btr, and APP.

## TIMBERS - S4S or ROUGH

NOMINAL SIZE	ACTUAL SIZE	LENGTHS	PCS./PKG.
4" x 6"	4" x 6"	8' - 20'	48

12" x 12"	12" x 12"	8' - 20'	8
12" x 16"	12" x 16"	8' - 24'	6

## FINISHING AND MAINTENANCE

- Yellow cedar can be allowed to weather naturally to a silvery grey look.
- If applying a finish, for best results coat all six sides before installation.
- Allow product to acclimatize to the environment where it will be installed to avoid unwanted shrinkage or expansion.

Finishing and maintenance guidelines are provided for general informational purposes only. For specific advice on finishing and maintenance, please consult with a qualified professional.
