

# Western Timbers

YELLOW CEDAR

Western Forest Products is a trusted leader in natural wood timbers and outdoor living products, known for its uncompromising quality and craftsmanship. Every product bearing the Western name meets some of the highest standards in fiber consistency and manufacturing excellence. Designed for those who value both performance, aesthetics, and durability. Western yellow cedar timbers offer a refined, natural look that supports individual style without sacrificing durability.

## WHY IS YELLOW CEDAR IDEAL TO WORK WITH?

**Rot Resistance** – yellow cedar has naturally-occurring, rot repelling tannins and oils.

**Honey Yellow Color** – featuring smooth, rich texture and straight grain.

**Durability** – one of the most durable cedar species in the world.

**WESTERN**

## SPECIES CHARACTERISTICS

Yellow cedar has a unique, natural performance, and exceptional beauty that brings warmth, character, and longevity to homes and commercial building around the world. Western's yellow cedar is graded for appearance purposes, full-sawn rough on all sides or surfaced four sides (S4S), and available in a variety of dimensions to allow a variety of uses.

6" x 16"	6" x 16"	8' – 24'	12
8" x 8"	8" x 8"	8' – 20'	18
8" x 10"	8" x 10"	8' – 24'	15
8" x 12"	8" x 12"	8' – 20'	12
8" x 16"	8" x 16"	8' – 24'	9
10" x 10"	10" x 10"	8' – 20'	10
12" x 12"	12" x 12"	8' – 20'	8
12" x 16"	12" x 16"	8' – 24'	6

## FINISHING AND MAINTENANCE

- Yellow cedar can be allowed to weather naturally to a silvery grey look.
- If applying a finish, for best results coat all six sides before installation.
- New cedar timbers that are going to be finished should be protected from the weather before finish has been applied.
- Allow product to acclimatize to the environment where it will be installed to avoid unwanted shrinkage or expansion.

Finishing and maintenance guidelines are provided for general informational purposes only. For specific advice on finishing and maintenance, please consult with a qualified professional.
