

Industrial Product Overview

INDUSTRIAL TIMBERS | MAT STOCK
MACHINE STRESS RATED LUMBER

A large stack of industrial timbers, likely Douglas fir, is shown. The timbers are stacked in a way that shows their length and width. Several labels are visible on the timbers, indicating they are from Western Forest Products (WFP). The labels include the code "HR1212" and other technical specifications. The timbers are a light brown color with a visible grain. The background is a clear sky.

INDUSTRIAL TIMBERS

Western Forest Products manufactures a line of high-quality **industrial timbers**, and has been reliably supplying to a wide range of government construction projects and private sector commercial applications across North America for decades.
