

WHY IS WESTERN RED CEDAR IDEAL TO WORK WITH?

Naturally Durable – resists rot, decay, and insects without chemicals.

Renewable – western red cedar is recyclable and biodegradable

Stable and Lightweight – low shrinkage and warping, yet easy to handle and install.

Insulation – natural thermal properties help regulate temperature.

Western Siding + Soffits

KNOTTY WESTERN RED CEDAR

Western Forest Products offers premium natural wood siding and soffits products. The Western brand reflects our commitment to producing quality products and delivering the timeless look natural wood brings to your project.

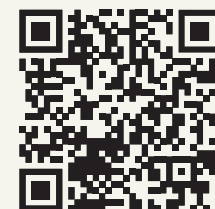

NATURAL WESTERN RED CEDAR SIDING

Western Forest Products Siding & Soffits is a premium line of high-quality Western Red Cedar exterior products. Each board is crafted from 100% natural, high-grade fiber with rich color, striking grain, and a smooth, silky finish. Offered in a wide range of lengths and profiles, they provide versatile design options and can be installed in multiple directions to suit your vision.
